MY STORY

I'm an aspiring Full Stack Developer, with over 14 years in the graphics industry.

I have always been obsessed with technology and I love to create things. I have redirected this creative energy from modifying PC's and vintage consoles into the software space.
I have found that programming gives me a way to be creative and build cool stuff.

SKILLS

JavaScript/ES6	Node.js	CSS/SCSS	MongoDB	jQuery
React	Adobe CC	Chrome Extensions	Heroku	Github/Git
Project Management	SQL/Postgress	SVG	Graphic Design	SASS
Express	NoSQL	Vue.js	Microsoft Azure	RoR
